

*I am a Survivor*

My faith and trust in God has tremendously increased by going through tough times and seeing His presence make a difference in my life. I have seen and experienced God's faithfulness and deliverance. The enemy was desperately trying to destroy me and I knew that the battle was on. I used every endeavor to fight this battle of cancer through the reading of His word, prayer, praise and my faith. *For when I am weak, then I am strong. My grace is sufficient for you, for my strength is made perfect in weakness. (II Cor. 12:7-10).*

God places his treasures in earthly vessels, like us, so that those who don't know Him will see his grandeur and glory in us. I love the Lord and I'm grateful that he used me to His glory to demonstrate His presence and divine healing in my life.

To my sisters in Christ, please remember the importance of having your annual mammograms and clinical breast exams to help detect breast cancer at earlier stages, when more treatment options are available and the chance for survival greatly increase.

With Love,

Sis Ann
